Client Portfolio | June '21 - Sept '21

React, Sass, CSS,
HTML, GSAP, Bootstrap

- Designed and built a mobile-friendly, highly styled portfolio website for professional roller skating client.
- Utilized React functional components, routing, and state management.
- Tested site compatibility across multiple browsers and devices
- Uncovering and debugging issues and addressing inconsistencies.
- Cross browser compatibility achieved by leveraging Sass pre-compiling.
- Identified and resolved website performance flags to optimize speed.

Projects

trvler

<https://trvler.netlify.app/>

HTML, CSS, JavaScript, React,
RapidAPI, Material UI

- Planned website development, converting mockups into usable web presence with HTML, JavaScript, and CSS on a React framework.
- Integrated a travel API and extracted parameters like location, ratings awards, and contact details for use and display in project.
- Created React components like content cards to display hotel, restaurant, and attractions details in a modular way.
- Implemented the Google Maps API to accurately display local eateries.
- Utilized Material UI to bootstrap styling and ensure responsiveness across common browser interfaces.
